

GGG the Third International Students Homestay Trial Homestay for Tokyo 2020

In Saitama Prefecture, we are preparing to accept the athletes' family members of the Olympic and Paralympic Games Tokyo 2020 by home staying at local homes.

In addition to keep accommodation for athletes' families by homestay, it helps them deepen the interaction with the host families in the prefecture.

We assume that they will become a fan of Saitama because of this experience and expecting them to post the charm of this prefecture through SNS and others even after finishing the Olympic and Paralympic Games.

We will have international students cooperate this program and conduct a trial homestay, to clarify issues and problems and solve them, before the actual acceptance of the athletes' families in 2020.

Therefore, in this GGS the third homestay program, we will be conducting a trial homestay as follows. We look forward to the participation of students.
